1. Review Incidents / Injuries / Near Miss Reports:

Hazard	Recommendation	Person to Follow up
Left hand lacerated when moving roof of vehicle during training.	The Safety Committee reviewed an extrication video for reference on mechanics/techniques on roof removal in order to provide additional context to the members who weren't familiar. The Committee deemed it necessary to have more information regarding the incident itself to provide a final recommendation/conclusion. We did note all required PPE was worn, there was additional help when moving the vehicle roof to the ground, and it was an isolated incident.	Steve Orr

2. Station Inspections: Due next month, October.

Good of the Order: None

Adjournment 5:10 PM

Next meeting: November 20th, 2025
