Discussion on reviewing past years injuries to see if there are any trends that we should address. In light of recent injury, discussed prevention fitness opportunities, exercise equipment or improvements for other exercises (such as circuit training, flex and stretch sessions before drills, fit for duty plan) Discussed exhaust systems for rural stations.

2. Station inspections:

- Mehama station needs a Lock Out Tag Out box, the one they have is not labeled and appears to be used for other items.

- Air tags for tracking larger items
- Electric gate at Training Facility
